**KUMYSS.**

**Milk Wine.**

IS GETTING TO BE THE MAIN RELIance of the physician in all cases of debility in which prompt improvement of the general tone is imperative. Kumyss is the blandest and most easily digested food, and as such the most nourishment for a weak stomach; at the same time, through the process of fermentation which Kumyss undergoes, medicinal qualities are developed which we vainly look for in materia medica. In nausea, vomiting, extreme cases of dyspepsia, Kumyss acts like a charm, promptly relieving all the distressing symptoms of the worst cases. When the stomach rejects all else, Kumyss is retained and assimilated, affording the patient nourishment, strength and comfort, and, as a consequence, nervousness ceases and refreshing sleep follows. In scarlet, intermittant and typhoid fever Kumyss is the best diet. It satisfies thirst and hunger and allays the fever. It is also highly recommended in consumption as tonic and restorative. But not only in extreme cases should Kumyss be resorted to; it should be the chief remedy for a weak stomach.

The dyspeptic brain worker with a few glasses of Kumyss a day will improve his digestion, and nerve force. Ladies would be less nervous, more vigorous and healthier looking, if they should add to their daily diet a few glasses of Kumyss.

OZCENA.

Ozcena is the professional or technical name given to an advanced form of catarrh in which ulceration has eaten through the membrane lining of the nose to the cartilage of the bone. Any case of catarrh may end in ozcena, but it most frequently occurs in those who are naturally scrofulous. The discharge takes place through the nostrils or through the throat, and is generally of a yellowish or greenish-yellow color, frequently tinged with blood, and almost always attended by an offensive smell. In the language of Dr. Wood, of Philadelphia, "the disease is one of the most obdurate and disagreeable which the physician has to encounter. In bad cases the breath of the patient becomes so revolting as to isolate him from society, and render him an object of dislike even to himself."

In a few instance pieces of bone become separated and slough off, leaving deep, unhealthy ulcers, which secrete a blood matter, and are extremely difficult to heal.

After ozcena has continued some time the sense of smell becomes impaired and often lost.

Deafness is one of its most common consequences and results from its extension through the eustachian tube to the internal ear.

Pains in the head and over the frontal sinuses, impairment of memory and even insanity frequently springs from its extension to the brain.

The greatest danger, however, because the most common, is that it will extend downward and affect the lungs. In most cases of pulmonary disease catarrh is present in some degree, and in many instance it causes a large share of the patient's discomfort.

Besides these grave consequences, all of which are liable to spring from scrofulous catarrh or ozcena, there are others which, if less dangerous, are sufficiently unpleasant. It occasions great unhappiness to thousands of both sexes, by isolating them and preventing their settlement in life. An offensive running from the nose, with foul breath, is about as great a calamity as can befall young people.

## The Times.

Office—Temple, Main and New High.

UNFAVORABLE crop reports come from the San Joaquin valley.

MILLER & LUX have a big legal fight on hand at Bakersfield against several irrigating companies.

GLADSTONE and his partisans in Parliament are kept busy explaining away the recall of Lumsden.

THEY are hanging rebel incendiaries at Colon, and thereby striking terror to others of that ilk on the Isthmus.

THERE was a shooting-match in San Francisco yesterday, growing out of the old disgraceful Dashaway steal.

A GANG of counterfeiters has been working Bakersfield. They packed the counterfeit coin around on a *burro*, and got "nipped."

SECRETARY BAYARD'S sympathetic speech of 1861 is bearing fruit. He is taking good care of the ex-Confederates, with whom he so profoundly sympathized at that time.

THE Illinois Democrats may drop Morrison for Senator if they like, but the Republicans will stick to Logan, and thereby gratify their political brethren throughout the country.

THE Medical Record publishes an official statement by Dr. Shrady describing specifically the condition of General Grant during the past week. It is not so favorable as to the main point as could be desired.

AN up-country paper prints a list of Democratic candidates for Governor, in which appears the names of S. M. White, R. F. Del Valle and J. DeBarth Shorb, of Los Angeles county, and numerous others. The woods are full of them.

THE Administration, despite complaints, is by no means idle in the work of making removals. During the month of April, besides the foreign ministers, consuls and bureau officers commissioned, there were 600 Democratic postmasters appointed. This will do for a short month.

THE Arizona Citizen says: "The mines near the San Xavier, and in the Sierritas are capable of yielding ores in sufficient quantities to suppy ten forty-ton furnaces in this city [Tucson]. Indeed the supply of lead ores there seems to be practically inexhaustible."

IN a recent contest of telegraphers, 500 words with punctuation marks, involving 2368 movements, were sent by the successful competitor in 10 minutes and 33 seconds. This is an average of nearly four movements each second, and is thought to be the most rapid telegraphing on record.

THE reported resignation of Dufferin, Viceroy of India, is consequence of the loss of British prestige in that country, caused by the Gladstone backdown in Afghanistan, is the most notable item in our foreign budget of this morning. The fact will cause the opposition in Parliament to assume the perpendicular and howl, as it were.

THE Senatorial situation in Illinois grows decidedly more hopeful for Republicans. There is now a prospect that General Logan will win, as the election of a Republican member of the Legislature from "Egypt," in the place of a deceased Democrat, has given our people a clean majority on joint-ballot. They are accordingly hilarious.

A NOTABLE member of the press gang, Isaac W. England, is dead. He came to this country from England when a lad of 17, and completed here his training as a bookbinder. He drifted into regular journalism, was once city editor of the New York Tribune, and subsequently business manager of the New York Sun, where he gained wide reputation as a financier and publisher.

IN Mr. Chris Buckley's new politico-social club, now undergoing formation "the initiation fee will be $100 and the dues correspondingly large, in order to make the organization exclusive and respectable." This valuable but chilling information is given on the authority of a Democratic cotemporary. It amounts to a notification to all concerned that San Francisco's new Tammany association is for the Chivalry exclusively. The Shovelry can't come in, but they have the privilege of voting the Democratic ticket, as usual.

THE Council committee to investigate Chief of Police McCarthy on a charge of incompetency meets at the Council chamber at 2 p. m. to-day. The Chief feels that having had his resignation accepted and no cessation of hostilities appearing, there is no use in further concessions. He will therefore stand his ground, and courts the fullest investigation, but demands that it shall be fair. He will, we presume, be represented by able counsel, and has a right to all the protection which law and justice can give him. No accused person can be convicted upon mere general denunciation by partisan and prejudiced witnesses or personal enemies; he must be confronted with specific testimony bearing upon specific charges, and cannot be convicted unless criminal offenses are specifically proven. Let the committee turn a deaf ear to mere clamor, proscription and irresponsible denunciation, and insist upon a strict observance of the rules of proceeding and evidence, upon protection for itself, and upon justice to the accused.

### BOARD OF EDUCATION.

**Special Session Held Last Evening.**

The Board met in special session last night. Present, Messrs. Gibson, Cochran, Wright, Elliott and Wade.

The candidates for Census Enumerator were present, and were informed of the requirements and remuneration for taking the census as indicated by the Board at its regular meeting May 5th.

On motion the following resolution was adopted:

*Resolved*, That the President and Secretary of this Board be authorized and directed in the name and on behalf of this Board to execute a deed of conveyance to the City of Los Angeles of the following described property to-wit: That certain lot situate in Los Angeles City, etc., etc., being the same conveyed to said Board of Education by the First Presbyterian Church O. S. of Los Angeles City—and to deliver the same upon the receipt of a warrant upon the City Treasurer of Los Angeles City, drawn by the proper officials for the sum of $12,000.

A ballot being taken for census enumerator resulted in the choice of W. S. Lyon for that position.

The Committee on Supplies reported that they had secured the Childs Opera House for the graduating exercises of the High-school class for Thursday afternoon and evening, June 11.

On motion the Board decided to recommend to the Board of Supervisors the names of Supt. L. D. Smith and Prof. Ira More for election as members of the County Board of Education.

## HE FELL DOWN.

**Gladstone Allows Russia to Have Her Own Way.**

**DUFFERIN RESIGNS IN CONSEQUENCE.**

**A Russian Colonel Who Participated in the Penjdeh Affair the Hero of the Day in St. Petersburg.**

*Associated Press Dispatches to The Times.*

TEHERAN, May 7.—Advices from Sarakhs state that a small force of Russians with four guns now occupy Penjdeh. The same advices contain the statement that the Russians have completely won over the Sarakh Turcomans. The telegraph line is now completed to a point 120 miles beyond Askabad. There is an apparent lull in the Russian preparations for war. The Afghan troops along the Bala Murghab, not having received any pay for a long time, are greatly demoralized.

LONDON, May 7.—The Times, commenting on the attitude of the Conservatives toward the Government respecting the Afghan question, characterizes the conduct of the Tory leaders as unwise. It says Lord Randolph Churchill is not justified in proposing to refuse supplies to the Government. The approaching election will give the Conservatives ample opportunity to arraign the Government at the bar of public opinion. The Times argues that the Conservative party would be much stronger if it abstained from rude and extravagant proposals. The Government have mismanaged the Afghan business, the article concedes, which shows that the opposition is incapable of doing better.

LONDON, May 7.—Granville in the House of Lords this afternoon, replying to a motion by the opposition for the production by the government of the papers in the Russian controversy, used the following language: "I do not believe that if England was going to wage war against Russia we should wage it at a disadvantage and with every advantage in favor of the Russians." Lord Granville denied that the government's military policy had been a failure, and denied also that Russia would go to Herat. The motion for the production of the papers was withdrawn.

LONDON, May 7.—Edmund Fitzmaurice, Under Foreign Secretary, replying this afternoon in the House of Commons to Gibson, Conservative member for Dublin University, stated that General Ridgeway, with Captain Yates and others, would remain in charge of the Afghan boundary commission, now that Sir Peter Lumsden is coming to London. "The instructions sent to Sir Peter Lumsden," Lord Edmund continued, "do not cancel his appointment. He has been summoned to London to advise the government about the frontier boundary commission. The escort will remain with General Ridgeway, who will carry on the work of the commission on the spot."

GLADSTONE EXPLAINS.

LONDON, May 7.—Gladstone, replying to questions in the House of Commons this afternoon, said that although on receipt of the first telegrams he had described the Penjdeh affair as an act of unprovoked aggression, still he had never presumed that the information in his possession when he had made that declaration was unquestionable. As a matter of fact, within twenty-four hours afterward news containing important qualifications of that first received had come to hand. Gladstone said he had no doubt that when Earl Dufferin, British Viceroy of India, at Lahore, after his return from the conference with the Ameer at Rawul Pindi, described the Russian attack as an act of unprovoked aggression, without any qualification, the Viceroy's statement was warranted by the circumstances under which he spoke and the knowledge in his possession, but Russia had since denied that Colonel Alikhanoff had ordered the Turcomans under his command to make any attack. The report that Colonel Alikhanoff had issued such an order was made to England by Captain Yates and his party, who belonged to Sir Peter Lumsden's boundary commission, and who were in Penjdeh during the battle. But it had been ascertained since that neither Captain Yates nor any of his party were aware of any other foundation for the report than a rumor. Gladstone said that Lord Dufferin had arranged with Abdurrahman Khan, Ameer of Afghanistan, the basis upon which the British government had so far proceeded in the frontier affair, and if farther communications with the Ameer on the subject should become necessary they would be made. Being asked if Lord Dufferin, as Viceroy of India, approved of the government's course toward Russia in the Afghan dispute, Gladstone refused to say whether he did or not.

THE RUSSIAN CASE.

ST. PETERSBURG, May 7.—Col. Zakrjefski, who was with Col. Alikhanoff during the Russian movment preceding and attending the battle of Penjdeh, has reached St. Petersburg with a full report of the Russian case, and has departed to Gatschina to deliver the report to the Czar. He says the inhabitants of Penjdeh are well disposed toward the Russians.

CONFERENCE POSTPONED.

LONDON, May 7.—The conference between Earl Granville and Baron De Staal, arranged to be held to-day at the Foreign Office, for the purpose of formally opening the discussion on the delimitation of the Russo-Afghan boundary, was postponed, as Baron De Staal is awaiting communications on the subject from St. Petersburg. Negotiations continue on the demand of Granville that Russia's assurances that her troops will not advance to Herat shall take the form of a treaty. There is a report that M. De Giers maintains that the simple expression of such an intention is a sufficient pledge. General Zelenoy has been recalled from Tiflis to St. Petersburg to assist the delimitation inquiry. M. De Giers has instructed General Komaroff to prepare a detailed report, with charts, of the advance on Penjdeh, as a basis for reference to an arbitrator.

DUFFERIN RESIGNS.

LONDON, May 8.—The Morning Post asserts that Earl Dufferin has resigned as Viceroy of India, in consequence of the disastrous effect upon British prestige in India of Gladstone's weak and timorous policy.

ST. PETERSBURG, May 8.—The following announcement appears in the Official Messenger: "In consequence of the divergence of views between the Cabinets of Russia and England on the interpretation of the March agreement, it has been decided to submit the question to the decision of an arbitrator. Meanwhile both nations have agreed to resume frontier negotiations, but on a different basis, namely, that the principal points of the frontier shall be fixed by a previous understanding between the two Cabinets, the demarkation of the frontier on the spot and the placing of indicating posts being reserved for commissions, which both powers will send. In order to facilitate the work of delimitation the outposts of both sides will not be withdrawn from their present positions until the arrival of the joint commission, when as fast as the direction of the frontier line is fixed, frontier points will be occupied by the troops of both parties concerned. It will then be the duty of each to maintain order and security in its respective territory.

THE HERO OF THE DAY.

ST. PETERSBURG, May 8.—Colonel Zakrjefski's report of the battle of March 30 is identical with that of General Komaroff. He admits that the Afghans were armed with poor rifles, but says their guns were better than those of the Russians. He asserts that the Afghan forces numbered 5000 men, while there were only 1500 Russian troops. He brings with him two captured Afghan stand of arms. The Colonel is the hero of the day.

LONDON, May 8.—M. Lessar, Russian Boundary Commissioner, had a conference with Earl Granville yesterday, with respect to the delimitation of the Russo-Afghan frontier. An arbitrator has not yet been chosen.

The Daily News says it is able to state that Earl Dufferin warmly approves the settlement made by England and Russia, as will appear from papers which are about to be laid on the table in Parliament. The News also says that the prospect of peace will not affect the budget. The money will be devoted to the work of increasing the navy, and any residue will be applied to the sinking fund.

LONDON, May 8.—Reports from Eastern Siberia are to the effect that armed bands of Chinese have crossed the frontier and surprised several Cossack villages.

**Mutiny on the High Seas.**

PARIS, May 7.—Advices from St. Vincent report that while the Messageries Francaise steamer Ville De Marseille was on her way to Buenos Ayres the emigrants on board mutined owing to the bad food furnished. They were finally overpowered after a desperate fight, in which the captain and several of the crew were badly wounded. Ten of the passengers were killed or wounded. The vessel put into St. Vincent, where she is guarded by a French cruiser.

**Arrival of Ocean Steamers.**

NEW YORK, May 7.—Arrived steamers Grecian Monarch, London; Amerique, Havre.

LONDON, May 7.—Arrived out steamers Rider, Anchoria and Normandie.

### ILLINOIS LEGISLATURE.

**A Republican Elected in the Place of a Deceased Democrat.**

SPRINGFIELD, May 7.—Latest advices from the three counties in the southern portion of the State contained in the Legislative district represented by Mr. Shaw (a Democrat) recently deceased, say they have returned a Republican successor. If this is the case the Republicans will have a clear majority on joint ballot for United States Senator.

SPRINGFIELD, Ill., May 7.—The Senatorial aspect has been materially changed by the events of the past forty-eight hours, and Logan's chances appear very much brighter. As soon as it became fully apparent that Weaver had been elected today he left for home. The general impression here is that he will fall into line when the time comes, although he feels sore over the abuse received when he paired with Shaw. Logan is now fully confident of his ultimate success, and correspondingly happy, as in fact are all Republicans. The hotel lobbies present quite a busy scene to-night, and many Republicans are inclined to paint the town red. As the spirits of one party rise the other's lower and Democrats are feeling blue enough. They admit that they were outgeneraled in this matter, and blame themselves for being so lax. None of the representatives from that district ever took the trouble to visit it during the election, so confident were they that no opposition would be offered. They now see their folly and repent of it. It is too late, as all doubts of Weaver's election have vanished, it being claimed that his majority now is 360. The vote cast was not one-third of that cast in November last. It is averred by some Democrats that an intimation of what was going to be sprung on them was learned the night before the election and the leaders in the district notified, but they paid no attention to it. General Logan says that the reason he accounts for it is because the people in the State want him to be the next Senator, and the Democrats did not wish to vote against him.

### PITTSBURG'S TRUNK HORROR.

**Arrest of Five Men in Chicago on Suspicion.**

CHICAGO, May 7.—To-night the police here are confident that they have solved the mystery surrounding the death of Filippo Caruzo. On evidence furnished by a little girl five important arrests were made this evening. The suspects are Sicilians of the lowest class, and none of them can speak a word of English. Their names are Augustine Comaato, Antonio Camirito, John Azzro, and Sylvestine and Bove Ingnazio. The three last named are residents where the murdered man was last seen a week ago last Thursday. Camirito and Comaato are, respectively, husband and brother of the woman Camirito, who has been arrested in New York. A week ago last Thursday Mamie Cachet, 12 years old, living in the vicinity, says she saw Filippo Caruzo enter the house of the three suspects above named. About an hour afterward she says she noticed a man carrying a large trunk admitted to the house. Her description of this trunk leaves little doubt that it is the one in which the corpse of the unfortunate Caruzo was shipped to Pittsburg. The man Jarado, whose arrest is reported from New York, and who apparently followed the trunk and its ghastly contents to Pittsburg, thence continuing his journey east, is regarded by the police here as beyond doubt one of the men present at the murder of Caruzo, if not the instigator of the crime.

### A GANG OF COUNTERFEITERS.

**Four Men Arrested at Bakersfield for Passing Spurious Money.**

BAKERSFIELD, May 7.—Yesterday four counterfeiters were arrested here, giving their names as James Brown, W. Swinken, Hugh McNeil and R. Horton, under the following circumstances. Four men having the appearance of ordinary tramps came into town, bringing with them a jackass carrying a pack. Very soon two of them left, taking with them the pack animal. The other two remained and made some purchases. Not long after it was discovered that the money was counterfeit; and they were promptly arrested, and about twenty dollars in counterfeit coin found on the person of one of them. The other two were followed and found in the willows along the river, where they had established a camp. The load of their pack animal was found to consist of a quantity of the counterfeit coin, provisions, tools and materials useful in their business. The dies used were not found. They were evidently well executed, but the counterfeit was of easy detection because of the lead material used. The party were lodged in jail and the United States authorities at San Francisco telegraphed. Three of them are very young men, but the probable leader, who calls himself Richard Horton, is about 35 years of age.

### CROP PROSPECTS.

**The Farmers of San Joaquin County Discouraged.**

STOCKTON, Cal., May 7.—The farmers of San Joaquin county are very much discouraged over the crop prospects. Two months ago they expected that they would get two-thirds as much grain as they did a year ago. Now they will consider themselves lucky if they get one-quarter of that quantity. There is but one piece of grain between Lodi and Woodbridge, the remainder being cut for hay. In the vicinity of Lockford there will be not much more than a hay crop. In many fields the grain is standing still, and is only eight inches tall, while it is turning yellow at the roots. There is but little grain in the vicinity of Waterloo, while around Bellota and along Mormon Channel the prospect is slightly better. There is no grain to speak of about Farmington, while the perennially dry west side will be barren. The wheat crop of San Joaquin county this year will come from the islands and the tule lands.

### THE TURF.

**Yesterday's Events at Lexington and Nashville.**

LEXINGTON, May 7.—Attendance excellent. Track fair. Mile—Maria won, Enos second, Silvia third; time, 1:48¼. Five furlongs, Bush's stakes, two-year-olds—Bankrupt won, Wanderer second, Brookful third; time, 1:04½. ### GENERAL GRANT.

**What the Medical Record Says of His Condition.**

CHICAGO, May 7.—Dr. George F. Shrady, in the Medical Record of May 9, will say of the condition of General Grant: "During the past week General Grant's bodily health has much improved. His appetite is better and he has relish for his food. Locally, his disease shows a slight tendency to progress. The palatal curtain is still considerably infiltrated, although all signs of acute inflammatory trouble have disappeared. The ulceration at the base of the right anterior faucal pillar and alongside the tongue presents a worm-eaten surface, indicating extension of the destructive process. Breathing is free and voice clear, but movements of tongue somewhat restricted, affecting articulation accordingly. Despite the favorable condition, there has been no changes in the local disease to warrant any modification of the original diagnosis by members of the medical staff.

**Fire at a Seaside Resort.**

PORTSMOUTH, N. H., May 8.—A fire at Hampton Beach last night burned the Sea View House, Atlantic House and Ocean House, and is reported to have swept the beach, destroying many cottages. The loss is $100,000, with partial insurance. The fire caught in an unoccupied portion of the Atlantic House.

**Annual Report of N. Y. Chamber of Commerce.**

NEW YORK, May 7.—The annual report of the New York Chamber of Commerce shows that for the year 1884 there was a decrease in the imports of the entire country of $57,813,000 from the figures of 1883, and a corresponding decrease in exports of $45,800,000.

## CALIFORNIA DAY.

**The Golden State Surprises the Slowgoing Creoles.**

**NEW HONORS GAINED AT THE EXPOSITION**

**A Fine Programme of Exercises, Beautiful Badges and Splendid Souvenirs of Pampas Plumes.**

*Special Dispatch to The Times.*

NEW ORLEANS, La., May 7.—California has made a gala day at the Exposition and won the highest honors. Everything conspired to render the occasion among the most memorable in the Exposition annals. The weather, for some time previous most unpropitious, displayed to-day the charms of the Pacific Coast climate, full of inspiration to lung and muscle and brain. The invitation cards issued by Colonel Andrews were the most tasteful and elegant yet sent out by any State, stamped with the seal of Eldorado. The badges were a marvel of blue satin, with a golden eagle clasp, rich golden fringe, and gold lettering for gentlemen, and of special beauty of originality in design for ladies, in red, white and blue ribbon, with coin charm and brilliant bullion tassel. No State has shown such special honor to the women in the way of souvenir badges. The exercises proper were preceded by a musicale at 12 m. in the parlors of the Pacific Slope Woman's Department. At 1:30 a procession of one hundred, headed by a band of music, followed by the Commissioners of the several States, citizens of California and the general public, was formed at the California headquarters in the Government building, and proceeded through the main building to the platform under the beautiful live oaks near the Art Hall, where the following programme was followed:

Introductory Remarks, United States Commissioner A. Andrews.
Address by Director-General E. A. Burk.
Music.
Address by Commissioner for Tennessee, L. B. McWhirter.
Music.
Poem, "Welcome to California," written by Mrs. Florence A. Clarke, of Texas; read by Mrs. Maria Swarzey, of New Orleans.
Music.
Address by Dr. Beverly Cole, of San Francisco, Cal.
Music.
Poem by Prof. Spring.
Music.

Commissioner Andrews's welcome was most genial, hearty and appropriate. Director-General Burke was very complimentary to California and closed with a plea for "extension" which received a moderate response. Dr. Cole captivated the audience with his interesting reminiscences of California's argonauts, rich humor and hearty eulogies of the Golden State. Prof. Spring spoke most flatteringly of the Monterey meeting of the Chatauqua Society. Souvenirs of pampas plumes were distributed to the delighted recipients, after which the procession again formed and returned to the California parlors, where good cheer from Eldorado's vineyards was graciously dispensed by Colonel and Mrs. Andrews, and the numerous guests dispersed with hearty cheers for the State that never disappoints. J. A. BREWSTER.

**Cold Weather in the East.**

CHICAGO, May 7.—The Journal's Janesville, Wis., special says: "A powerful wind storm set in from the Northeast last night, and the thermometer fell to 28 degrees above zero, making ice a quarter of an inch thick. Tobacco beds suffered severely. The thermometer stood 38 degrees above zero to-day, which is the coldest ever known here in May."

ST. PAUL, May 7.—A snowstorm is general throughout the Northwest. Seeding is retarded, but there is no great damage to vegetation, as it is not far enough advanced to suffer seriously. Ice is an inch thick at Yankton, Dak. Fruit buds are frozen. An inch of snow fell at Fargo. Wind forty miles per hour. Thermometer 21 above zero.

**Suits Brought by Miller & Lux.**

BAKERSFIELD, May 7.—A special says: Suits were commenced by Miller & Lux yesterday in the Superior Court of this county against the following canal companies: Kern River Land and Canal Company and Farmers' Canal Company, James and Buena Vista Canal Company and Pioneer and Goose Lake Canal Company. Plaintiffs claim damages against these companies aggregating $75,000 because of water diverted by them from the natural channel of the Kern river, Buena Vista Slough and Old river, and because of the construction of wing dams by which they ask their removal, with a perpetual injunction against their reconstruction. The success of these suits would convert extensive tracts of fine farming land into a desert.

**Rainfall in Oregon.**

PORTLAND, May 7.—Rain began falling in the Willamette Valley about 1 o'clock this morning, and continued in gentle showers until dark this evening. Average rainfall throughout the valley, about six-tenths of an inch. It insures an extraordinary large crop of small fruits, particularly strawberries and cherries, and makes certain a full crop of spring-sown cereals. Winter wheat never looked better. The rain also extended into Eastern Oregon and Washington Territory, though not so heavy as on the western part of the coast. At 8 this evening it had reached Walla Walla, and the prospects were for soaking rains through the night.

**Minister Keiley Sails.**

NEW YORK, May 7.—Mr. Keiley, the newly-appointed United States Minister to Austria, accompanied by his family, sailed for Europe to-day.

LONDON, May 7.—Thomas Sexton, Home Rule member of Parliament from County Sligo, Ireland, has placed on notice a paper in the House of Commons asking the question as to whether the English government has interfered with the appointment of Mr. Keiley as United States Minister to Austria.

**Robbery of Trunks in Transit.**

SAN FRANCISCO, May 7.—J. H. Woodward, general agent of the Wabash, St. Louis and Pacific Railroad, received a dispatch yesterday from A. F. Evans, who left this city a week ago by the Southern Pacific, and who is now at Noblesville, Indiana. The dispatch stated that Evans's trunks were forced open en route and his wife's diamonds, worth $2500, were stolen. It is believed the robbery occurred between this city and the Needles.

**Treaty Between France and Annam.**

PARIS, May 7.—The Chamber of Deputies to-day adopted, by a vote of 308 to 57, the treaty concluded August 21, 1883, between France and Annam. M. De Freycinet, Minister of Foreign Affairs, explained that the tready had been virtually in force during the past eighteen months. A credit of 120,000 francs was adopted by the Chamber to defray the expense of laying a submarine cable to Tonquin.

ENLARGED SHEET.

FRIDAY, MAY 8, 1885.

WASHINGTON CITY is growing rapidly, and is becoming, as far as its wealth, size and architectural beauty are concerned, every way a worthy capital of this great American republic. Building operations in that city during the past few years have been exceedingly active. The Building Inspector's reports show that from 1879 to 1884 12,554 building permits were issued, the value of the improvements being $15,548,343. This gives an average of over 2000 permits a year, with a value of more than $2,500,000.

It is estimated that the number and value of buildings that will be erected during the present year will greatly exceed that of any other one year in the history of the nation's capital. At this rate of growth the boundaries of the city will soon have to be extended, and the hills as well as the valley will furnish beautiful sites for America's magnificent capital, whose possibilities for beauty are not excelled by any city upon the continent.

THE tone of the Alta California, relative to the few Federal appointments thus far made for California, indicates that the Field wing of the party is feeling "pretty well I thank you" over their work with the President, as far as they've got. The Alta is highly pleased over the appointment of Colonel Stuart M. Taylor as Naval Officer, and complacently goes on to speak about the situation as follows:

We are glad to see the administration selecting for place the applicants who are acceptable to the best elements of the Democratic party, men who are truly conservative, like Mr. Wilson, Colonel Taylor and Mr. Greenebaum. Mr. McCoppin will most likely be appointed to the Chinese mission within a day or two, and within a few days still other conservatives will be appointed, and thus gradually the long list of offices will be shortened and the contest for place will be made less important until finally nothing will be left to contend for. We congratulate the President upon the most excellent appointments given us thus far. Keep it up.

This must be gall and wormwood to the Stockton Convention side of the house.

THE efforts to have General Grant make his home in California in case his convalescence is permanent have evidently not been abandoned. The San Francisco Chronicle says that two prominent citizens of San Francisco have lately been visited at the Mission San José, with a view to purchasing a home along the foothills, between that place and Warm Springs, to present to the brave soldier. They were very favorably impressed with the fine place formerly owned by the late J. C. Palmer. Nestling at the foot of Mission peak, with commanding views of the Alameda and Santa Clara valleys, San Francisco, Oakland and San José in the distance, the beautiful bay and the Coast Range mountains directly in front, its picturesque location would make it a very desirable place in which the old hero could spend his remaining days in quiet and comfort.

GOOD, sober, staid Bostonians are waking up to the fact that the schoolboys of Boston are in the habit of frequenting saloons and drinking liquor, and they are going to try to a law prohibiting the sale of strong drinks to minors.

In this respect, Boston boys are representative boys. They do not stand alone in this habit. Los Angeles has just such boys, who may be seen almost any day frequenting the saloons and patronizing the bars where liquor is sold. This thing should be stopped. We need just such a law as Boston is striving for, if we would have our young men and boys safe from the temptations to intemperance. Every parent should feel an interest in this matter. It should be made impossible for a saloon keeper to sell liquor to minors without being liable to a heavy punishment.

FRANCIS MURPHY is doing a great work in Pittsburg. His temperance meetings are of notable interest. There is an impression abroad, says the Telegraph, that only the habitual drinkers, men who have suffered the sorrow and shame of the besetting sin of the age, come under Murphy's influence, drawn by his tenderness and his ability to help them, but this is a mistake. He is not only reclaiming drunkards, but he is preventing hundreds of young men from becoming drunkards. It is as important to save men from falling into the ways of intemperance as to reclaim them when they have fallen. A sober man is the only capable man; he is the only trustworthy man; he is the only man in whom an employer can have confidence.

THE Railway Age reports that twenty roads, having 4146 miles of track, were placed in the hands of receivers during the first quarter of this year. Their bonded debt amounted to $126,709,000, their capital stock to $148,580,000, and there are many millions of overdue interest and floating debt. If the bankruptcies go on at the same rate the rest of the year 1885 will be the worst year in the history of the country. The number of roads placed in the hands of receivers during 1884 was thirty-seven, and the mileage 11,038, and the capital and debt $715,000,000.

THE attention of the commissioners of the District of Columbia having been called to the number of houses of ill-fame in Washington, they make answer "that if citizens have good grounds to believe that any house is used for unlawful purposes it is proper for two householders to sign a report to that effect to the major of police, and it will receive attention." This seems to be a suggestive way of suppressing disreputable houses.

## A VITRIOLIC VIRAGO.

### Mrs. Emma Cruise Lets Loose on America.

### AN IRISH TOADY TO GREAT. BRITAIN.

#### A Letter of Wholesale Abuse of America and Fulsome Adulation of England.

Mrs. Emma Cruise, an Irishwoman of very un-Irish sympathies, has for a couple of years resided in this city, but recently left it for some more congenial social atmosphere. A couple of months ago she wrote to an obscure Irish paper the following vitriolic letter, probably with no idea that it would ever find its way back here. It did, however, and is reproduced below as a curiosity. Mrs. Cruise "slings a sassy pen," but her remarks lack judicial force and discrimination:

30 BOYD STREET, LOS ANGELES, March 1.—*Editor of the Nenagh Guardian, Ireland:* It is now a long time since I promised writing to you, a promise which I would have fulfilled but for circumstances which it is needless to refer to, but as I have a little leisure now I will devote it to you. The oranges are dropping ripe off the trees, the greater part of the crop having been gathered in in January. The roses are in full bloom, the cypress hedges in lovely green, the geranium hedges a mass of blossom, and peppertrees waving their feathery branches when touched by the gentlest breeze, and the sun is as hot as it will be with you in June or July.

My only enjoyment consists in walking about the streets of the city, watching the different nationalities of which its 30,000 inhabitants is composed. They are very distinct—no mistaking them. Here is the American, with his thin parched visage, his vulture eyes, which look you through and through, dollar-worship written on every line of his face; the Spaniard, with his proud, vindictive glance; the Irishman, with his purposeless, easy-going gait; the Frenchman, with his cynical sneer; the solid resolute German, with the air of a man determined to overcome all difficulties; the Mexican, with the eye of an intelligent but vicious dog; the good-natured, honest-looking colored people; and last, not least, John Chinaman, the great institution of the country. Well, the crowd of well-dressed American women pass along their walk in a proclamation of thorough republican independence, the toss of the head, the swagger of the shoulder, the whisk of the train, arithmetic gleaming from the eye, which scans and values every passing object. There is no softness in those eyes, no beam of benevolence, no sparkle of wit, no womanly weakness. Those women are without grace of gesture or dignity of mein; they go silently and determinedly to the divorce court and exchange their husbands with as much ease as they draw off their gloves; they scorn the conventionalities which regulate the conduct of the women of Europe, and in the true spirit of the "Great Republic" have struck a code for themselves. Their favorite studies are arithmetic and anatomy, and on the slightest provocation they will pour out the history of America from the landing of Columbus to the election of Cleveland.

The laws are not the outcome of justice and equity impartially administered, but rather traps for the unwary, which subserve the purpose of those wander ing speculators who are too energetic to settle down to patient industry. There are monopolies in trade and manufacture sanctioned by bribery; for such evils there is no redress. "The sovereign people" dare not investigate the misdeeds of the "sovereign people."

You are taxed until you are almost left a beggar—taxed not alone for houses and lands, but for the money in your purse, the clothes on your back, and the watch in your pocket; to the poor who can't pay there is no mercy shown. The Great Republic never condescends to ask for taxes, but those who don't pay within the month in which the tax-office is open have their holdings entered on the "delinquent list." The speculator with the vulture eyes is on the watch to purchase from the State those taxes, and so become possessed of the poor man's property. If within six months after the date of the sale the poor man can raise money at twelve or thirteen per cent. interest, he may regain his property from the vulture by paying him the sum he advanced, together with interest and cost; if he fails to redeem within the stated time, the property becomes the vulture's for ever and ever. This is one specimen of the merciful administration of this glorious Republic!

After a residence of nearly two years I now regard America as the cradle of the sordid, the training-school of scoundrels, the grave of every noble aspiration, of every generous thought and impulse. There is neither the pride of race, the halo of genius, nor the promptings of philanthropy to restrain the unscrupulous, or point to the path of rectitude; there is no standard of excellence; there is nothing to reverence.

This Republic is a jumble of rotten machinery, to which the real statesman never lends a hand. From the President down to the lowest official, embracing Senate, Judge and juries, there is not one actuated by an honorable or a patriotic feeling. Men seek the four years' term of office for the purpose of growing rich in that interval—by all means and by every means—every hand is held out for a bribe. This is the reason the murderer and the swindler escape justice; but the day may not be far distant when this people, drunk and reeling from the excess of this spurious liberty, will invite some conqueror like Napoleon to come and reduce them to order.

Some time last summer there was a great demonstration in the city, I forget what it was about. I think it was celebrating the American victory over the Mexicans. I was in the street alone watching the "Plumed Knights." John came up close to me, and said: "Mother, come, and I will show you the finest sight in the city." So we walked along until we came opposite the office of the British Consul, and John pointed to the grand old flag of England that waved on high—"the flag that braved a thousand years the battle and the breeze"; and as we gazed with pride and rapture, and recalled the memory of those great heroes who upheld the honor of that flag, and the great men who shed a lustre on the name of Britain, her profound philosophers, her matchless poets, her true philanthropists, and her wise and patriotic statesmen, we felt that even at the distance of 7000 miles that to be still the loyal subjects of that glorious Empire was the proudest boast we could make.

And when we thought of our beloved Queen, her unsullied character, her tender and affectionate heart, her anxious devotion to the welfare of the State and of her people, we said: "Here, in the person of our gracious Queen, is the standard of excellence wanting in this Republic for men to reverence and women to imitate." We shook the dust from our feet and retired, saying: "God save the Queen; long may she reign, happy and glorious;" and God save dear old Ireland, the beautiful land of our birth, and save her from the patent medicine and quack doctors of America; with which prayer I must now conclude, and subscribe myself sincerely yours,

EMMA CRUISE.

Mrs. Cruise's statements are so sweeping and so virulent as to carry their own refutation, and rob them of any critical weight. While human nature and human government everywhere have the inseparable flaws of humanity, it would be hard to find any locality deserving of such wholesale abuse. Mrs. Cruise also shows symptoms of toadyism to royalty; and if one may judge from her tone, some independent American has been snubbing her extensively therefor—which may account for her abhorrence of republican institutions.

### A Rural View of the City.

[Covina Independent.]

When in Los Angeles the other day we were shown around by one of that city's most energetic citizens, and it is simply wonderful how rapidly our county capital is growing. The old-time land-marks have almost all disappeared or been crowded back by magnificent business blocks and beautiful residences. Her numerous street railways, electric lights, increasing business and crowded thoroughfares speak plainly for the rising city of Southern California.

During Judge Sawyer's absence in the East Judge Sabin will take his place in the Circuit Court at San Francisco.

## MEN AND WOMEN.

A daughter of Kit Carson, Rebecca Lewis by name, committed suicide a few days ago at Springer, New Mexico.

Lord Chief Justice Coleridge says judges are weary of calling attention to drink as one of the chief causes of crimes.

Queen Victoria's only surviving aunt, the Duchess of Cambridge, has not been outside of St. James' palace in twenty years.

Henry Miller, of Lux & Miller, California cattle dealers, is in Tucson, Arizona, for the purpose of making heavy investments in cattle.

Mrs. Isaac Bell, Jr., wife of the new United States Minister of the Netherlands, is the lady for whom the ill-fated Arctic steamer Jeanette was named.

William H. Vanderbilt both chewed and smoked tobacco in his younger days. It is said to be thirty years now, however, since he used the weed in any form.

In New York, Monday, in an interview, Mapleson said: "I have brought suit against Nicolini; and not against Patti. You know billiards have turned poor 'Nic's' head. He is playing all the time, and I have been paying him for learning. I don't want to get anything out of him; I only want him to treat me properly, and not calmly refuse to sing, as he usually does, contrary to his contract."

A book agent went into a barber shop and asked the proprietor if he could sell him a encyclodepia. "What is it like?" asked the barber. "It is a book that contains exhaustive information upon every subject in the world." "No," said the barber, with an injured air, "I don't need it."

### A Blistering Insult.

[Cincinnati Commercial Gazette.]

The man appointed Minister to Italy undertook to define his position the other day in a speech at Richmond, and this was his idea of saying something nice and conciliatory:

I am to-day, as are millions of my countrymen, recognizing with fullest loyalty *the authority of a government over my own State, founded on what I considered a gross and bloody violation of public rights committed against myself and them,* but an authority fixed and unalterably secure in the acquiescence of the people—an acquiescence which concludes the public judgment of the whole world.

The fact that a man capable of this is receiving public honors in this country is a profound and blistering disgrace. The fact that he is accredited Minister to Italy, whose government he has insulted in much the same style, displays a lower depth of degradation.

[Chicago Inter-Ocean.]

After the President learned what a patriot Mr. Keiley was, whom he had named for the Italian mission, he promptly promoted him to be Envoy Extraordinary and Minister Plenipotentiary of the United States to Austro-Hungary. It was this same Mr. Keiley who declared that "the present governments of the South were founded on a gross and bloody violation of public rights committed against the people of the South," and when his attention was called to it, repeated and enforced the sentiment.

### The Fight of the Faithful.

[From a San Francisco Post interview.]

Governor Johnson's slate of conservatives is: Stuart M. Taylor, for Naval Officer; Beck, for Appraiser; J. R. Glascock, for United States District Attorney; McCoppin, for Japan or China; Jesse D. Carr, for Collector; P. B. Tully, for Postmaster; S. H. Brooks, Sub-Treasurer; W. C. Hendricks, Mint Superintendent; H. C. Livingstone, Surveyor General; E. O. F. Hastings, Registrar; Martin Kelly, Receiver; D. R. Risley, Collector at Wilmington; T. J. Arnold, Collector at San Diego, and P. H. Ryan, at Humboldt. Johnson's claim is not based on opinion alone, and he points with pride to some significant facts. The "Faithful" told all sorts of stories to the detriment of the "Readouts," whom they classed as monopoly hirelings, and made, too, a special fight against Judge Field; yet Garland, the particular friend of Field, has been appointed Attorney General, and S. M. Wilson, a railroad attorney of this city, was offered the mission to China or Spain. Then, too, Mr. Greenebaum was made Consul to Apia, despite the solemn protest of the radicals, and it looks as if the solemn protest business was waste of time with Cleveland.

**A Well-Known Doctor's Experience.**

Dr. C. Fawcett, Resident Physician of the Union Protestant Infirmary, Baltimore, Md., publishes a card certifying that having recently had three cases of consumption under treatment where obstinate cough was the most prominent symptom, he concluded to give Red Star Cough Cure a trial, and in every case where it was used the effect was most marked and beneficial, as it seemed to have the power of controlling cough and thereby promoting sleep, especially at night, when cough is always the most troublesome.

## FINANCE AND TRADE.

**Stocks and Bonds.**

*By Telegraph to The Times.*

NEW YORK, May 7.—Government bonds dull and unchanged, except an advance of ¼ in currency 6s of 1895. Stocks were firm at the opening, and first prices were generally a small fraction higher than the close of last evening, but Vanderbilts were an exception to this rule and New York Central and Lake Shore immediately after the opening, and extended in early dealings to the rest of the list. Gould stocks were well supported throughout the day, but Grangers and Vanderbilts made important declines, the early decline in New York Central from last evening amounting to 2½ per cent., while Lake Shore fell 2¾ per cent. The rest of the list yielded an average of 1 per cent, and with a fair amount of business the market continued weak until after 1 o'clock, when the decline was checked and a moderate rally followed, the market finally closing steady midway between the highest and lowest quotations and at prices which are for the most active stocks from ¼ to 1¾ per cent lower than they closed last evening. New York Central was an exception, making a net loss of 2¾ per cent. The afternoon was well supplied with sensational rumors affecting the financial standing of some prominent houses on the street, but they could not be verified, and probably were only another device of the enemies of believers in higher quotations.

WEEKLY REVIEW OF EASTERN AND SOUTHERN MARKET.

[*Reported by J. N. Sewall, broker, 39 N. Spring street.*]

CHICAGO—$1 50 to 3 00.
DENVER—$1 75 to 2 25.
MILWAUKEE—$1 50 to 3 00.
CINCINNATI—$1 50 to 3 25.
ST. LOUIS—$1 50 to 3 00.

There is a better feeling existing in the orange market both north and east than at any time during the present season, and although there is no material advance in prices, still the tendency is upward, as our market is controlled by foreign importations it is difficult to state anything beyond possibilities. Should California's stock continue to hold up its condition as well as it is now doing, and foreign importations continue as they are, a steady market with advanced prices may be looked for.

**San Francisco Market Report.**

FLOUR—We quote: Best city extra, $4 25@5 00; medium, $3 50@4 00; shipping superfine, $3 75@3 90 ₰ bbl.

WHEAT—Business continues light in volume, and the market is almost spiritless. Shippers are offering $1 35 ₰ ctl. for ordinary grades, though they would likely pay $1 37½ for round lots up to standard. Some small parcels of choice were taken by exporters this morning at $1 40, which is an extreme price for this class of custom.

BARLEY—There is so little trading in the sample market that it is hard to correctly quote values. The inquiry is light, and holders are more anxious for bids than they were a few days ago. Probably $1 30 ₰ ctl. is about all that could be obtained at the moment for the best kind of feed, while it is not likely that the market could stand much pressure of offerings at this figure. Brewing ranges from $1 35 to $1 45 ₰ ctl., the demand being less urgent.

CORN—Prices unchanged. Quotable at $1 30 to 1 35 for large Yellow; small Yellow, $1 40 to 1 42½; White, $1 42½@1 45 ₰ ctl.

HAY—Alfalfa, $8@12; Wheat, $10@16; Oat, $8@$12; Barley, $7 00@$11 00; Mixed, $7 00 @9 00 ₰ ton.

HOPS—Demand nominal. Quotable at 7@8c ₰ lb for choice, and 3½@5c for poor offerings.

POTATOES—Wharf rates are as follows: Old River Early Rose, 90c; River Red, 35c; Petalumas, 25@35c; Garnet Chile, 30@40c; Peerless, 40@50c ₰ ctl; New, 75c to $1 00 ₰ ctl; Oregon Burbank Seedlings, 75@85c ₰ ctl.

ONIONS—Are improving in quality and advancing in price. Quotable at $3 00@3 75 ₰ ctl. Red, $1 00@1 15; Small White, $1 50@2 12½; Pea nominal, none in market.

VEGETABLES — Green Peas are now sold by the sack, owing to low ruling prices. Other descriptions are generally easy. Asparagus, 40c@$1 00 ₰ box; Rhubarb, 5c@$1 00 ₰ box; Tomatoes, $1 50@2 25 ₰ box; Artichokes, 30c ₰ dozen; Cucumbers, 20c@75c ₰ doz; Carrots 50c@60c; Turnips, 50c@60c ₰ ctl; Beets, 40@50c ₰ ctl; Parsnips, $1 00 ₰ ctl; Cauliflower, 65c ₰ dozen; Cabbage, 75c ₰ ctl; Garlic, new, 5c ₰ lb; Celery, 50c ₰ dozen; Dried Peppers, 15@18c ₰ lb; Green do, 9@10c ₰ lb; Green Peas, 75c@$1 00 ₰ sack; String Beans, 3@4c ₰ lb for Los Angeles and 5@7c ₰ lb for Vacaville; Dried Okra, 15@25c ₰ lb; Marrowfat Squash, $10 00 ₰ ton; Summer Squash, $1 00@1 50 ₰ box, the latter for choice nay.

FRUIT—Prices still shape in favor of buyers. The best cherries to-day were offered at 50c ₰ box, the lowest figure yet this season. Strawberries are weak and not likely to improve in value for the present, owing to competition from other seasonable varieties. Currants move off slowly, many of the arrivals being more or less green. We quote as follows: Cherries, 20@30c for poor to fair qualities, and 35@50c ₰ box for good to choice; Strawberries, $3 00@5 00 for poor, and $6 00@7 00 ₰ chest for good consignments; Currants, 20@30c ₰ drawer; Raspberries, 10@15c ₰ bakt; Gooseberries, 5@7c ₰ lb; Apricots, 8@10c ₰ lb; Apples, 25@$1 00 for common, and $1 50@2 25 ₰ box for good to choice; Lemons, Malaga, $4 50; do, Sicily, $5 00@5 25; do, California, 75c@$1 00 ₰ box for ordinary, and $1 00@1 25 for Sicily seed; Mexican Limes, $10 50@11 00 ₰ box; California do, 50@75c for small boxes, and $1 75@2 00 for large.

DRIED FRUIT—Sun-dried Apples, 2c ₰ lb for sliced and 2c for quartered; Alden and Plummer, 1½c; Apricots, 8c; Blackberries, 9c; Figs, 4c for pressed and 2c for unpressed; Smyrna do, 15c for layers and 11½c @ 12½c for kegs; Nectarines, 9c; Peaches, 12½c for peeled and 7@8c for unpeeled; Pears, 2c for whole and 3c for sliced; machine dried, 8c; Plums, 7½c for pitted and 1½c for unpitted; German Prunes, 4c; French Prunes, 5c ₰ lb; Raisins, new crop Layers, $1 50; loose muscatelle, $1 50 ₰ box.

NUTS—We quote: California Almonds, 10c for soft and 6c for hard-shell; California Walnuts, 8c; Peanuts, 3@4c; Hickory Nuts, 7@8c; Filberts, 13c; Pecans, 10c; Brazil Nuts, 9c; Cocoanuts, $4 50@5 00 ₰ hundred.

HONEY—We quote: Comb, 7@8c; Extracted, 4@5c ₰ lb.

BEESWAX—Quotable at 24@25c ₰ lb.

BUTTER—Values unchanged. Fancy, 18½c; choice, 16½@17½c; good, 15@16c; mixed lots, 13@15c ₰ lb; firkin, 15@16c for old and 17@20c for choice new; 12@14c for ordinary to fair; Eastern, 12½@14c ₰ lb.

CHEESE—Large stocks. Quotable at 9 to 10c; interior grades, 6@8c; Eastern, 16@17c; Western, 6@10c ₰ lb.

EGGS—Are in large supply. Quotable at 16 to 17c ₰ dozen.

POULTRY—There is a slight improvement in Turkeys, but other kinds are generally easier. We quote: Live Turkeys, Gobblers, 16 to 18c; Hens, 17@19c; dressed do, 15@20c ₰ lb; Roosters, $5 00@5 50 for old and $7 00@9 50 for young; Hens, $5 00@6 50; Broilers, $3 00 @5 50 as to size; Ducks, $4 50@5 50 ₰ dozen for old and $6 00@7 50 for young; Geese, $1 75@2 50 ₰ pair for young, and $1 50 ₰ pair for old.

KELLOGG'S

Anti-Bilious Worm Wafers

REMOVE ALL KINDS OF WORMS (WILL not remove the head of the Tapeworm) without the aid of other remedies. They act as a mild cathartic, and are useful in regulating the bowels, for costiveness, indigestion, sour or weak stomach. The symptoms of stomach worms are: Foul tongue, eyes heavy and expressionless, dry, hacking cough, sallow complexion, dark and blue circles around the eyes, foul and disagreeable breath, constant picking of the nose, grinding of the teeth, and starting up with terror and fright during sleep, at times very feverish accompanied with great thirst, he cheeks flushed and then again as pale as death and white around the mouth, the belly hard and swollen, short, cramping pains in the stomach. These worms sometimes coil up in the throat, causing death by strangulation. The symptoms of Ascarides generally called seat, or pin worms, are noticed by an itching sensation of the lower end of the bowels or rectum. There are other kinds of worms that inhabit the human system, but their symptoms are similar to those above mentioned. Persons can be sure when their children have the above symptoms that they are troubled with worms, and that KELLOGG'S WORM WAFERS will expel them in all cases. Can be sent by mail on receipt of price. Price per package, $1.
